Recovery is POSSIBLE, IMPORTANT, and a NEW BEGINNING

Recovery Iowa News is delivered to your e-mail in plain text format. You may link to <http://www.recoveryiowa.org/RInews.html> for the formatted pdf version.

Recovery Talk Network added to Recovery Iowa Resources

Recovery Talk Network (RTN), <http://www.recoverytalknetwork.com>, airs live every Monday through Friday, from 10 p.m. to 12 a.m. CT with a variety of guests, interviews, and useful information. Go to their Web site and check out the upcoming shows, <http://www.recoverytalknetwork.com/show.html>, or download a show you have missed.

Originating from the CRN studios in Sunland, California, "Let's Talk Recovery" is among the most cutting-edge talk formats in radio today, RTN is the source that millions of Americans turn to for straight talk and heightened awareness of the recovery process from the disease of addiction. Highlighted by listeners who share their experiences in recovery and dealing with related issues, the show also features an impressive roster of the recovery field's experts and advocates. "There Is A Solution" hosted by Larry W. with Constantine airs on Monday and Tuesday nights. "Richard C. and the Old Timers" airs every Wednesday. Columnist and authority on parenting children with addiction, Leyla Fatima shares her personal experiences "Parenting the Addict Child" every Thursday. More than "12 Step Radio," guests include members of numerous 12 Step Programs, but also individuals who have achieved and maintained recovery through other methods.

Since its inception in March, 2007 the Recovery Talk Network, <http://www.recoverytalknetwork.com>, has facilitated its mission to provide inspiring and entertaining programs with the goal of informing the public that recovery from the disease of addiction is not only possible, but is being experienced by millions of Americans of all ages and backgrounds -- whether the addiction is alcoholism, drug abuse, gambling, smoking, compulsive overeating (including obesity, anorexia, and bulimia) or one of many others. "I am delighted to introduce listeners our valuable message that recovery is not only possible, but is occurring every day in the lives of millions of Americans," stated RTN's Host, Larry W., himself a recovering alcoholic and compulsive overeater.

RTN on CRN is available nationally via most cable systems. For more information on CRN Digital Talk Radio or to view the complete programming schedule log onto <http://www.crntalk.com>. CRN Digital Talk Radio reaches more than 24 million households nationally and abroad via cable television, broadcast radio, satellite and the Internet. The world's first original cable audio service, CRN is featured on the public information channel on most cable television systems. On digital cable systems, CRN's digital talk channels are listed right after the music service. Listeners can check their local cable listings for availability or visit <http://www.crntalk.com>
